

Forecast For The United Kingdom
Issued by Met Office Exeter
at 1600 on Wednesday 20 Oct 2021

++ Valid for broadcast between 1800 and 0600

Headline:

Heavy rain over southern England tonight, all areas colder Thursday.

This Evening and Tonight:

Early evening cloud and heavy rain over southwest England spreads eastwards across southern England, before clearing later. Further north, cloud and rain affects Scotland, Northern Ireland and northern England for a time before clear spells and showers follow later.

Thursday:

Early rain over southern UK soon clears. Otherwise, a bright but much colder day than of late with sunny spells but also some showers in the north and west.

Outlook for Friday to Sunday:

Cold start Friday, with scattered showers. Many areas however staying dry, though breezy. Dry and cold start Saturday, before rain, stronger winds and milder weather spreads from the northwest.
